

ASTUS 14.5

BACK TO BASICS

www.astusboats.com

Designed and developed in 2020, the Astus 14.5 is a return to the basics. The Astus 14.5 has been designed to be a more compact support, to find the feeling of gliding, the simple pleasure of being on the water. The Astus 14.5 exists in a prao version (outrigger canoe) or in a trimaran version.

Lightweight and easily transportable, the Astus 14.5 is the nomadic boat for everyone.

MAXIMUM PLEASURE

Find the simple sensation of gliding, to sail, row, fish, canoe... or just get away.

MINIMUM CONSTRAINTS

5 minute solo set-up time, less storage, no more trailers.

COMPACT

With its 25 kg center hull, the Astus 14.5 can be transported on the roof or on a car trailer.

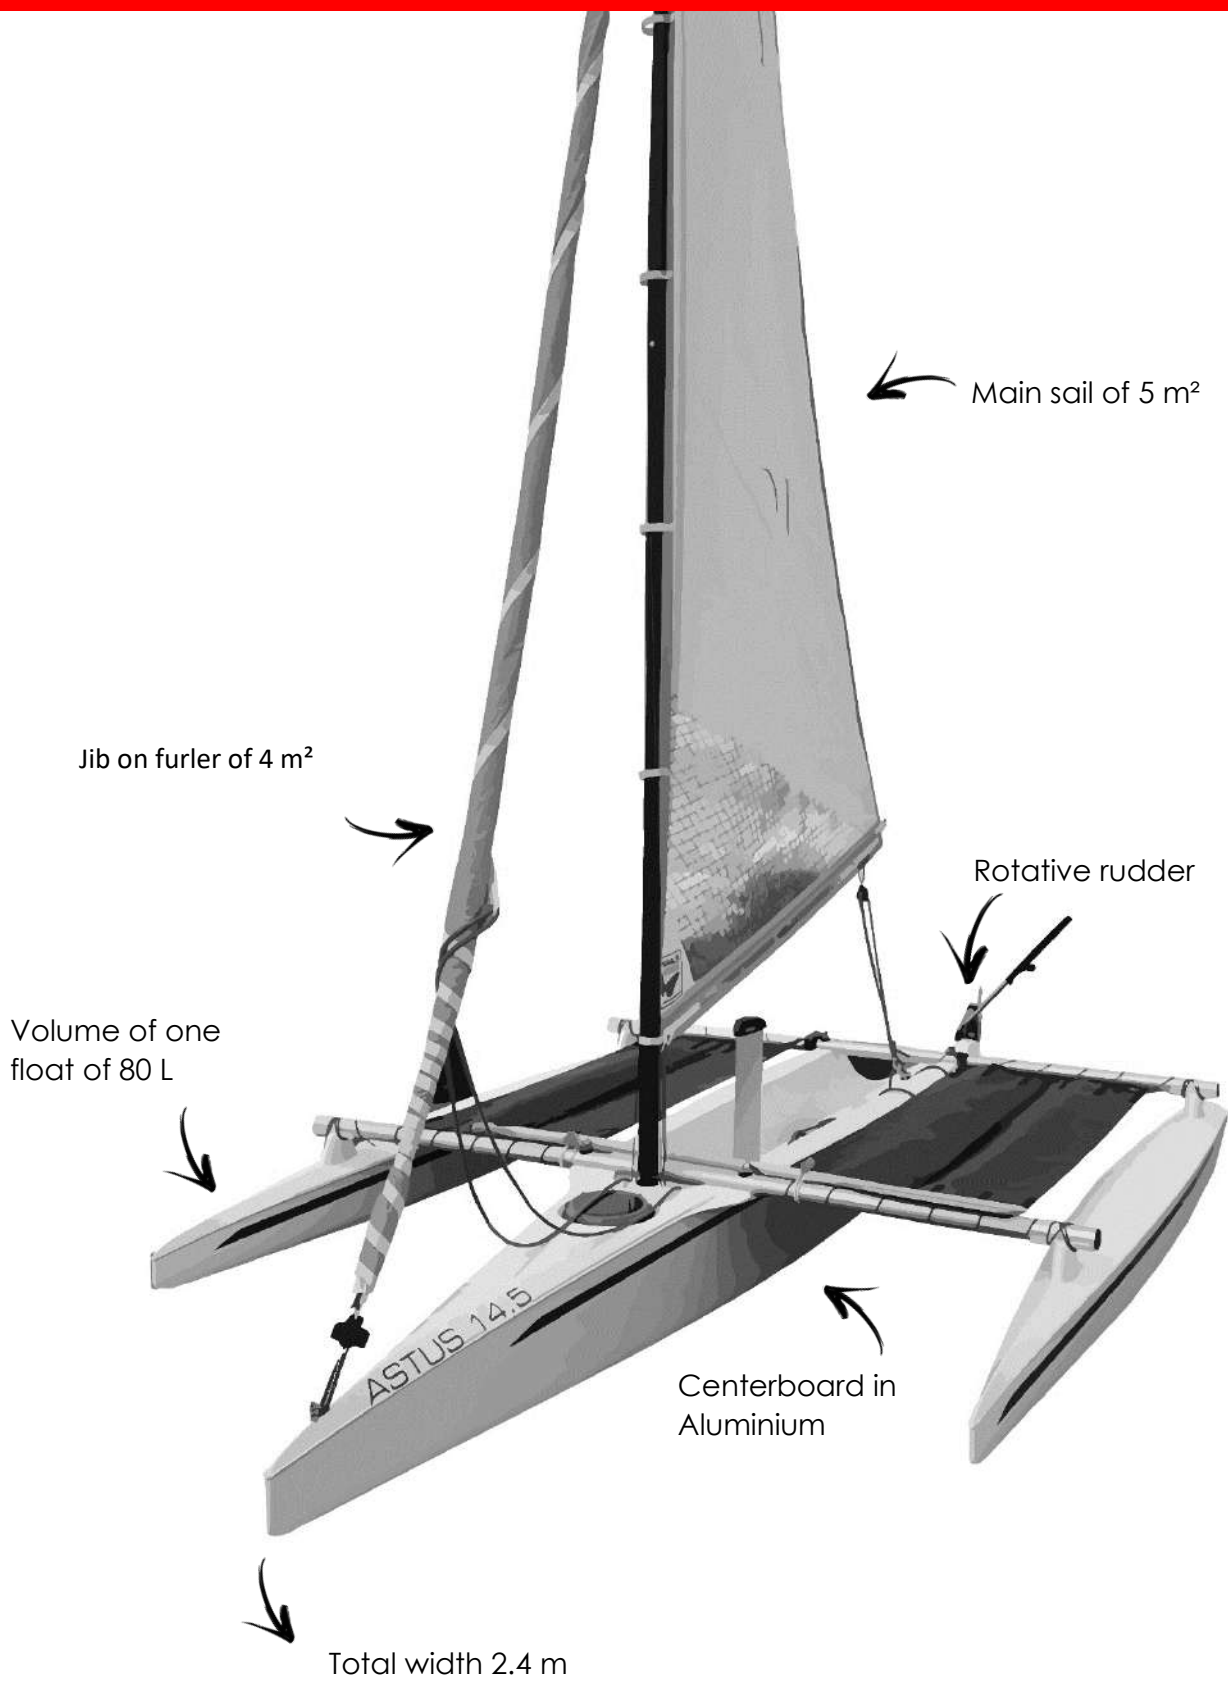

You are free to go wherever you want

NOMAD

With a draft of only 15 centimeters, take the Astus 14.5 anywhere, and enjoy any body of water.

FEATURES

CONFIGURATIONS

PRAO

Central hull and a float
